

KHUSHI

Full-Stack Developer | AI/ML

[GitHub](#) | [Email](#) | [LinkedIn](#)

PROFILE

BCA (AI & IoT) student building full-stack applications with JavaScript, Node.js, Express, REST APIs, MongoDB, and Git. Currently expanding into Python-based machine learning and building practical applications that connect frontend, backend, and AI/ML components.

EDUCATION

ICFAI University Jaipur — BCA (AI & IoT), 8.00 CGPA

TECHNICAL SKILLS

Languages: JavaScript, Python, SQL

Backend: Node.js, Express.js, REST APIs

Frontend: HTML5, CSS3, Responsive Web Design

Database: MySQL, MongoDB, Mongoose

Concepts: OOP, MVC, Authentication, API Integration

Tools: Git, GitHub

AI/ML: NumPy, Pandas

PROJECTS

Khushi Portfolio — In Progress | Aug 2026

Personal portfolio website designed to present projects, skills, resume, and contact information. Built with a responsive HTML/CSS/JavaScript approach and focused on simple, aesthetic UI/UX.

Hunter Auth — Completed | Aug 2026

JWT authentication backend built with Node.js, Express, MongoDB, Mongoose, bcrypt, and middleware. Implemented signup, password hashing, login verification, JWT generation, Bearer-token validation, and protected routes following MVC-style separation.

GPA AI Analyzer — Python, Pandas | Aug 2026

Built a machine-learning application to analyze academic performance and predict GPA using a regression model. Developed the preprocessing, training, evaluation, and API integration pipeline.
